

Scan4Discount Complete Documentation

This document contains the complete flow process for registration, shop owner benefits, customer scanning, discount rules, dashboard features, and business growth.

1. What is Scan4Discount?

Scan4Discount is a digital QR-based discount and loyalty system designed for retail stores to increase sales, attract customers, and automate reward distribution.

Customers scan a store's QR code after purchase and instantly receive discounts, reward points, or coupons based on your store offer configuration.

The entire discount process is automated, secure, and fully trackable inside your dashboard.

2. Core Features

- Instant discount via QR scan
- Reward points system like PayTM
- Next-visit promo coupons
- Gift and festival campaigns
- Customer analytics dashboard
- Multi-store management
- Fully automated discount validation

3. How Scan4Discount Works

1. Store Registration

Go to <https://login.scan4discount.com/login>. Click Register, enter store details, and login.

2. Create Store and Generate QR

Add a new store. The system auto-generates a unique QR code. Print and place it at the billing counter.

3. Configure Offers

- Set minimum purchase amount
- Set discount range from Rs.5 to Rs.50
- Enable reward points
- Create coupons
- Enable festive campaigns

4. Customer Buys Items

Customer completes purchase at your store.

5. Customer Scans QR

They enter bill amount and mobile number for rewards.

6. System Validates

- Checks eligibility
- Generates random discount
- Applies reward points
- Shows coupon if applicable

7. Customer Benefits

- Instant discount
- Reward points added
- Next-visit coupon displayed

4. Business Profit Example

- Before: 30 customers per day
- After: 40 customers per day
- Extra revenue: Rs.1000 per day
- Monthly profit: Rs.29,400

Shop owner benefit: More customer visits, better repeat purchases, and automated discount tracking.

5. Dashboard Overview

The dashboard gives full visibility into store performance, discount usage, customer behaviour, and revenue insights.

Revenue Reports

Track daily, weekly, and monthly earnings with bill insights.

Offer Performance

Monitor which offers drive maximum engagement.

Customer History

View scans, points earned, and behaviour patterns.

Store Performance Graphs

Visualize growth with traffic and revenue charts.

QR and Store Settings

Regenerate QR, edit store details, and adjust rules instantly.

Subscription Management

Upgrade, renew, and manage billing plans easily.

Dashboard Login: <https://login.scan4discount.com/login>

6. Registration and Shop Owner Benefits

Shop owners can register their store, generate a QR code, create discount campaigns, track customer scans, and manage all store activities from one dashboard.

- Simple digital store registration
- Easy QR code generation
- Automated discount and reward system
- Better customer retention
- Clear revenue and scan reports
- Useful dashboard for business decisions

Final Summary

Scan4Discount helps stores increase sales, attract repeat customers, automate discounts, manage reward points, and track business performance from one dashboard.
